How the Returns Will Be Calculated and Distributed?

Ecom Cluster generates monthly returns, which will be distributed quarterly. Additionally, **an audit will be conducted every 3 months** to ensure complete transparency.

Example Calculation:

If the monthly profit is **\$3,000**, then by the end of the quarter, the total profit will be **\$9,000**.

Equity Holder
\$4500

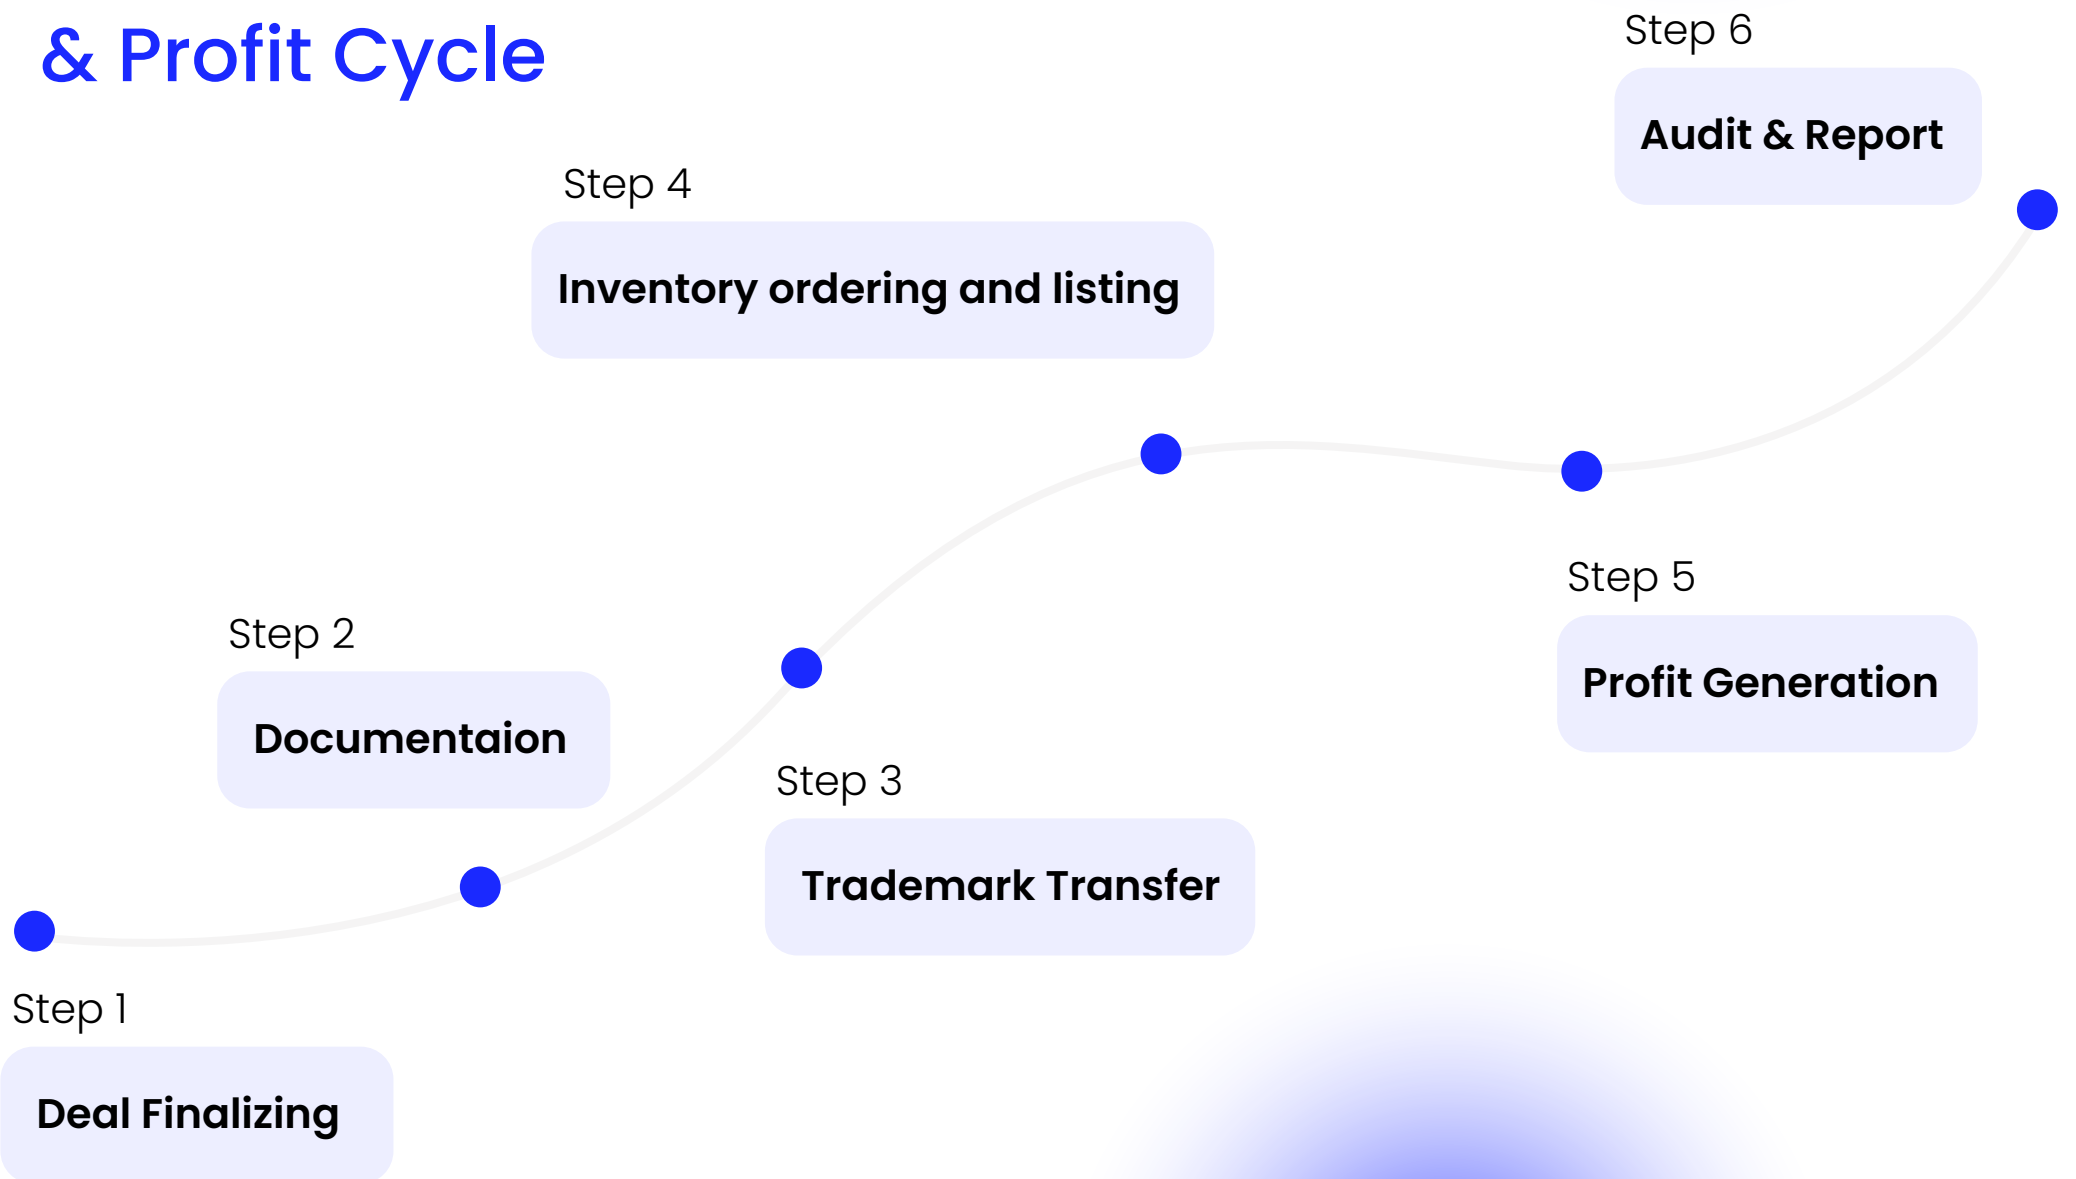

Penta Squad
\$4500

Profit Distribution:

The total profit will be equally divided between both parties.

Ecom Cluster Process & Profit Cycle

The entire process will take **3 months** to set up. Once the Private Labels **reach maturity**, first set of returns will be ready.

Let's break it down into **phases** and explore how each stage of **Ecom Cluster** unfolds.

Phase 1

Business Setup (First 3 Months)

- Deal finalization & documentation.
- Inventory sourcing, approvals, and trademark transfer.
- Brand stability and marketing
- First set of returns generated.

Phase 3

Profit Distribution & Growth

- Quarterly audits ensure transparency.
- Returns are distributed every 3 months.
- Each company under Ecom Cluster is projected to generate \$3,000 - \$4,000 per month.

Phase 2

Revenue Activation (Next 3 Months)

- Private Labels enter the growth phase.
- Sales stabilize, profit margins strengthen.
- Second set of returns generated.

Why Invest in Ecom Cluster?

At **Ecom Cluster** a subsidiary of **Penta Squad Group**, we have built and nurtured five private label brands, each backed by data-driven market insights, strong sales performance, and high customer demand. These brands are not just concepts; they are fully operational businesses generating consistent revenue and profitability.

Private labels dominate e-commerce due to higher profit margins, brand control, and long-term stability. With streamlined supply chains, optimized marketing strategies, and growing consumer trust, investing in private labels ensures sustainable passive income and capital appreciation.
